

COVID-19

Update on Policies and Procedures

1.2 Safeguarding children, young people and vulnerable adults

All staff remain alert to any signs that during the current COVID-19 outbreak a child in their care is suffering from or likely to be suffering from harm. This includes signs of neglect that may be caused by extraordinary circumstances due to measures to curb the spread of the virus.

4.1 The role of the key person and settling-in

During the COVID-19 outbreak it is likely that some children will not have their usual key person. Where this is the case, the principles of the key person role are followed as closely as possible.

Any temporary staff must be trained to proficiently and safely administer medication and medical procedures for individual children, caring for the individual needs of children with SEND, as detailed in their Health Care Plans. *8.4a Prioritised Place Risk Assessment* will be used to identify any risks that may be incurred due to a change in key person for such children.

5.1 Staffing

During the COVID-19 outbreak, staff will be deployed as per the government guidance. A risk assessment for working with prioritised places is included (8.4a). Relaxation of the rules on ratios may be implemented only in exceptional circumstances, and only during the COVID-19 outbreak period. Any relaxation of ratios must be based on a risk assessment approach and with the authorisation of the manager. Otherwise the following procedure applies.

During the COVID-19 outbreak early years staff are themselves considered to be 'key workers'. If staff cannot source care for their own children then they are able to bring their child to the setting, ensuring that as far as possible, they adhere to the criteria below and ensure they are not breaching conditions of their insurance provider:

- where members of staff have their own children with them at the setting, the age of the child must fall within the stipulated ages of the setting's Ofsted registration
- where members of staff are likely to be working directly with their own children, this is subject to discussion before commencement with their line manager
-

6.2 Managing children who are sick, infectious

If any child ,staff member showing symptoms, such as a high temperature; a new, continuous cough; loss or taste or smell, the following sequence of actions need to be taken:

1. Child presents with symptoms; parents are requested to collect child and seek diagnosis from GP or take further advice from NHS 111; call 119 or order on line PCR test .
2. Child's parents are requested to inform setting of outcome/diagnosis and keep child at home for the recommended exclusion period of 10 days if the test result is positive or until their waiting for the results. For cases of suspected Coronavirus, staff and service users must adhere to current Government advice regarding self-exclusion even if no symptoms are present.
3. Staff member shows symptoms they must order PCR test and stay at home until they have test results back. If the result is positive continue to self isolate for 10 days from the first day of the symptoms.
4. Staff and children with a positive rapid lateral flow test result should self-isolate in line with [COVID-19: guidance for households with possible coronavirus infection](#). They will also need to [get a free PCR test](#) to check if they have COVID-19.

While awaiting the PCR result, the individual should continue to self-isolate.

If the PCR test is taken within 2 days of the positive rapid lateral flow test, and is negative, it overrides the rapid lateral flow test and they can return to the setting, as long as the individual does not have COVID-19 symptoms.

5. NHS Test and Trace will be informing people who were in the chain of contacts.
6. Children will be asked to take PCR test if anyone in their household tested positive and stay at home until receiving test results.
7. For confirmed cases of a notifiable disease and Coronavirus the setting must contact their local Health Protection Team (HPT) as soon as possible for further guidance. The line manager will inform the owner/trustees/directors and retain a confidential record.
8. Acting on the advice of the local HPT, the setting will either:
 - close for a set period and undertake a deep clean
 - carry on as usual but also undertake a deep clean
9. If a notifiable disease is confirmed, staff must inform the line manager immediately and Ofsted must be informed within 14 days. Cases of confirmed Coronavirus should be treated as a notifiable disease.
10. A deep clean is undertaken at the soonest opportunity following any illness outbreak. Hand hygiene messages are reinforced and staff are vigilant to any further signs of infection.
11. The manager continues to liaise with the HPT as required and keeps a full record of children affected, how long they are away from the setting and the date on which they return.

6.4 Nappy changing

Teachers to use PPE during nappy changing .

6.5 Food and drink 8.2 Maintaining children's safety and security on premises.

Parents will be asked to supply packed lunch and snack.

Each child will have their own cutlery and drinking cups / water bottles.

The following procedures must be followed:

- Babies and toddlers' hands are washed prior to being given food or drink.
- Staff who are eating with the children must role-model hygiene best practice.
- Tables are never overcrowded during mealtimes. Some social distancing is encouraged even though it is acknowledged that children will play in close proximity for the rest of the session.

• 8.2 Maintaining children's safety and security on premises

- Ensure good hygiene for everyone.
- Children will be asked to wash hands before and after they have snack and meal, in between activities, after using toilet.
- Maintain appropriate cleaning regimes, using standard products such as detergents.
- All surfaces, Montessori materials, toys, furniture will be cleaned before and after each session.
- Keep occupied spaces well ventilated by opening windows when possible or using air-conditioning if the weather will not permit to keep windows open.
- Follow public health advice on testing, self-isolation and managing confirmed cases of COVID-19.

• 10.1 Parental involvement

We will be using different strategies to promote parental involvement.

We will provide feedback at the door about the child when possible .We will be using EYlog app to provide observations, photo for parents .

We will be communicating via phone and video platforms.

To ensure safety of all we will make sure that following measures are in place to

- reduce face to face contact between parents and carer and staff members :
- parents will be asked to keep social distancing and follow marking outside when waiting
- Parents will be dropping children by the door.

8.3 Supervision of children on outings and visits- Suspended

Children will have access to outdoor play and learning opportunities as normal.

8.3 Risk assessment

8.4a Prioritised Place Risk Assessment is provided ,for managing prioritised places, ensuring the safety and well-being of every child is paramount. The form can be used for groups or for individual children who may be vulnerable.

9.11 Promoting Positive Behaviour

This is an unsettling time for young children. Practitioners are alert to the emotional well-being of children who may be affected by the disruption to their normal routine. Where a child's behaviour gives cause for concern, practitioners take into consideration the many factors that may be affecting them. This is done in partnership with the child's parents/carers and the principles of this procedure are adhered to.

10.7 Provider records

During the COVID-19 outbreak there may be the need to keep additional records as part of outbreak management.

A central record of all confirmed cases of COVID-19 that affect any member of staff or service user is held. This record does not contain personal details about the individual (unless for a member of staff). Records are kept of individual cases of children/families who are self-isolating due to symptoms. In all cases the principles of data protection are maintained.
